Photo Format

Considered to be the Polaroid of the 19th century, the “tintype” was the original form of preserving memorable moments through photography.

We’ve done our best to replicate the essence of that process to create new heirlooms for generations to come.

Our standard package comes with unlimited 4X6 sepia, matte finished prints for your guests.

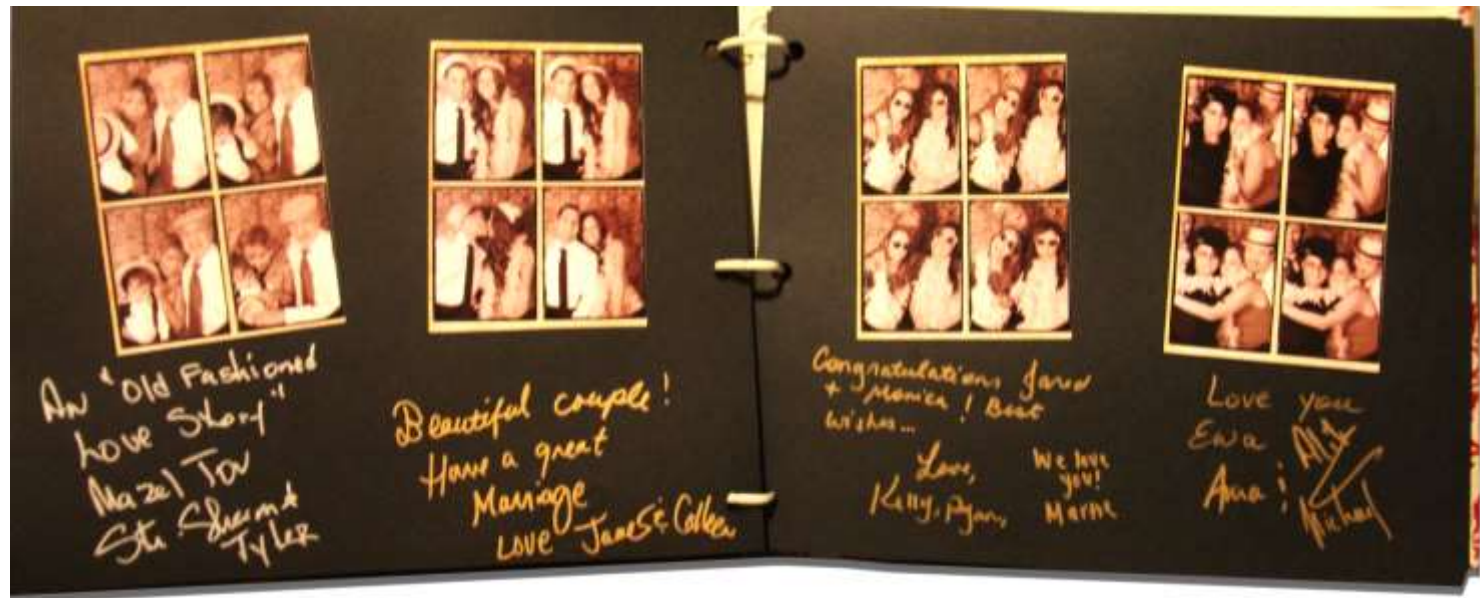

6X9 and 8X12 printouts can be requested for an additional cost.

Props Package

Classic Album

Vintage backdrop selection
